

GrammarFactory::GenLL1Grammar

GrammarFactory::GenSLR1Grammar

GrammarFactory::HasUnreachable
Symbols

```
graph LR; A[GrammarFactory::GenLL1Grammar] --> C[GrammarFactory::HasUnreachable Symbols]; B[GrammarFactory::GenSLR1Grammar] --> C;
```

The diagram illustrates a flow where two different grammar generation methods, `GrammarFactory::GenLL1Grammar` and `GrammarFactory::GenSLR1Grammar`, both lead to a common state or method, `GrammarFactory::HasUnreachable Symbols`. The source boxes are white with black borders, while the destination box is gray with a black border. Blue arrows indicate the direction of the flow from left to right.
