

LL1Parser::PredictionSymbols

```
graph LR; A[LL1Parser::PredictionSymbols] --> B[LL1Parser::First]; A --> C[LL1Parser::Follow]; B --> B;
```

The diagram illustrates the relationship between the `LL1Parser::PredictionSymbols` set and the `LL1Parser::First` and `LL1Parser::Follow` sets. A gray box on the left represents `LL1Parser::PredictionSymbols`. Two blue arrows point from this box to two white boxes on the right: `LL1Parser::First` (top) and `LL1Parser::Follow` (bottom). Additionally, a blue curved arrow points from the top of the `LL1Parser::First` box back to itself, indicating a self-loop or recursive relationship.

LL1Parser::First

LL1Parser::Follow
