

SLRTutorWindow::launchSLRWizard

```
graph LR; A[SLRTutorWindow::launchSLRWizard] --> B[SLRTutorWindow::verifyResponseForC]; A --> C[SLRTutorWindow::verifyResponseForA]; C --> B;
```

The diagram illustrates a sequence of method calls within the SLRTutorWindow class. It starts with the method launchSLRWizard, which branches to call both verifyResponseForC and verifyResponseForA. Subsequently, verifyResponseForA calls verifyResponseForC, completing the sequence.

SLRTutorWindow::verifyResponseForC

SLRTutorWindow::verifyResponseForA
