

widgets/appsettings.h

```
graph BT; A[app/main.cpp] --> B[widgets/appsettings.h]; C[gui/grammareditordialog.cpp] --> B; D[gui/mainwindow.cpp] --> B;
```

The diagram illustrates a header file dependency. At the top is a grey box labeled 'widgets/appsettings.h'. Below it are three white boxes: 'app/main.cpp' on the left, 'gui/grammareditordialog.cpp' in the center, and 'gui/mainwindow.cpp' on the right. Blue arrows point from each of the three bottom boxes up to the top box, indicating that all three source files include the 'widgets/appsettings.h' header.

app/main.cpp

gui/grammareditordialog.cpp

gui/mainwindow.cpp
