

gui/examreportdialog.h

```
graph BT; A[gui/examreportdialog.h] --> B[gui/examreportdialog.cpp]; A --> C[gui/ltutorwindow.cpp]; A --> D[gui/slrtutorwindow.cpp];
```

The diagram illustrates a header file dependency. At the top is a grey box labeled 'gui/examreportdialog.h'. Below it are three white boxes: 'gui/examreportdialog.cpp' on the left, 'gui/ltutorwindow.cpp' in the center, and 'gui/slrtutorwindow.cpp' on the right. Blue arrows point from each of the three bottom boxes up to the top box, indicating that all three source files include the header file.

gui/examreportdialog.cpp
